

June 2007 Safety Meeting College of William and Mary

Applied Research Center Student Newsletter

LEARNING ABOUT FIRE SAFETY

Anthony (Jay) Oubre, the Fire Safety Officer at the College of William and Mary, came to the ARC to talk about fire safety with the WM crew on June 20. Among the topics discussed were the different kinds of fire extinguishers used for various types of fires and the steps for using a fire extinguisher; a clever acronym PASS (Pull, Aim, Squeeze, and Sweep) was discussed to help remember the steps to follow. Jay also discussed the correct exiting procedures in case of a fire and the muster place for WM personnel working in the ARC.

We had 16 members of our team present for the safety meeting. They included staff, students, faculty, and post-docs.
